Good afternoon Mr. Hagenov,
as I told you on telephone we need an instruction manual of your kletter-kuli CU404.
We are user of a lot of your products in Italy and usually our vendor give us all the instruction manual in Italian. In this case the vendor gave us only the manual written in German and doesn't have other version. Could you please give us the manual in Italian? If you don't have the Italian one, could you send me an English version?
Thank you
Best regards
